Hendricks Commercial Register

IS USED FOR

Purchasing Purposes

IN ALMOST EVERY CLASS OF TRADE

Should you desire quotations on any commodity you do not readily locate in this book, use this card to give us the necessary information and we shall immediately have the concerns best qualified to quote send you their figures. Or if you note any error in the compilation, or if there is any information you feel we should have, please tear off one of these postcards and send it in.

Classified Products Section

Classifications marked thus * are inserted for concerns using these classifications for publicity purposes. Other concerns in similar lines of business will be found under standard classifications.

Note.—The "Index to Classifications" (preceding this section) should always be referred to when the desired information is not found in alphabetical order in the following pages. Many articles of a similar nature appear only under one general classification. For example, "galvanized steel sheets" cannot be found under the letter "G," but a reference to the "Index to Classifications" shows them at classification 6715, and when that classification is located the desired information is found, listed as "Iron and Steel Sheet (Black and Galvanized)."

Prest-O-Lite DISSOLVED ACETYLENE

One Gas

In spite of continuous efforts to substitute other fuel gases, Acetylene remains today the only practical welding gas and by far the best for cutting.

Because it is so perfectly adapted to both welding and cutting, it does away with the necessity for two stocks of fuel gas and two types of apparatus for cutting and welding.

Delivery Service

A great chain of Prest-O-Lite distributing stations has been built up with the view to meeting every possible requirement of Prest-O-Lite users. It embraces a total of 72 plants and warehouses located in every industrial center throughout the country.

District Sales Offices

While distributing stations for Prest-O-Lite are maintained in every manufacturing district in the country, each user should communicate with his nearest Prest-O-Lite District Sales Office for arrangements to adequately cover his requirements. Prest-O-Lite District Sales Offices are located in the following cities:

Atlanta	Dallas	Philadelphia
Baltimore	Detroit	Pittsburgh
Boston	Kansas City	St. Louis
Buffalo	Los Angeles	Salt Lake City
Chicago	Milwaukee	San Francisco
Cleveland	New Orleans	Seattle
